

g![®]

YOUR WORLD MADE SIMPLE

*Have you ever wondered if it was possible
to control the lights, music, security system,
even temperature – from across the room?
Or how about from across the globe?*

It all begins with a simple touch...

Home

Media

Security

Climate

Introducing **g!** – a family of products designed to provide more convenience, comfort and peace-of-mind than you ever thought possible. Personalized to fit your specific lifestyle, these solutions range from simple family room control to full whole-home entertainment and management – even remote monitoring of vacation homes.

And best of all, with **g!** – whether you're moving around the room or around the globe, the system is just as easy to use. Thanks to its uniform look and feel, no matter what **g!** interface you touch, it will simply feel like home.

Living with g!

Now that g! has cataloged our entire collection of music and movies it's easier than ever to find our favorites. Instead of thumbing through stacks of discs, we simply use our remote to flick through cover art on the TV.

loving music & movies

going green in style

We try to do our part in protecting the environment, so we love that g! gives us the ability to set automatic schedules for lighting, climate and irrigation. Conservation without frustration – that's an idea we can warm up to.

controlling from anywhere

Even though I logged 250,000 miles in the air last year, with g! my home is always within reach. Using my iPhone I can check the temperature, control the lights, open the garage door to receive a delivery, even get up-to-the-minute alerts from my home.

using it everyday

Using our phones we can confirm that our son made it home from school safely – and is doing his homework. And when we're together at the end of the day, g! makes it easy for us to set the mood for movie night, or retire for the evening listening to different music in every room.

HOME

Think of the things you do to get ready in the morning: turn on the lights, check the weather and traffic reports, maybe even turn on the morning news. g! delivers your world at a glance with a personalized dashboard for your home. Customize your screen with the things you use most such as weather forecasts, camera video, lighting, even security system features. With g! it's all about you.

“It’s amazing how one elegant screen has simplified our life at home, giving us immediate access to what we care about most. And when we go on vacation, a single button press puts our home in ‘green’ mode.”

Get one-touch control of
comfort, security & conservation

Arm the security system

Control the lights

Check the weather

...your home at a glance.

MEDIA

What if you could press a button to access your entire collection of music and movies – *from anywhere in your home?* g! catalogs your discs and displays them with brilliant cover art right on your TV, touchscreen, or iPhone, making it easier than ever to find your favorites. If you're really into music, you'll love finding new favorites with Pandora®, Rhapsody™ and other streaming services.

“Now that we have easy access to our music from any room, we have rediscovered our favorites. And the sound quality is just incredible!”

Get one-touch control of your home theater

Access your entire collection of music and movies

Brilliant cover art and alphabetical list views

Rhapsody, Pandora and other internet music

Control music in other rooms

Easily create playlists of your favorites

...it's a whole new music and movie experience.

SECURITY

Does your current security system ramp up the lights when the alarm sounds? Does it flash the exterior lights to alert the neighbors? g! adds this intelligence to better protect your investment and your family. Plus, it can send text message alerts to your cell phone and allows you to remotely arm or disarm the system.

“If there is an emergency, g! gives us quick access from every room in the house – or anywhere in the world. Now we can rest easy knowing that our family is safe and secure.”

Replaces unsightly security keypads

Instantly see if doors or windows are open

Full event history

Arm or disarm the system remotely

Mobile phone alerts

...peace of mind at home or away.

CLIMATE

Studies have shown that lowering a thermostat just three degrees can save up to 10% on your energy bill. With g! not only can you automate these adjustments, but you also gain access to detailed history views that allow you to monitor the system and make informed decisions about consumption. And if you own a vacation home, you'll love the remote access that gives you control while away.

“Being green has never been easier. With one button press I can set the entire system to ‘away’ mode. If I leave work early, I can remotely adjust the temperature so the house is comfortable when I arrive.”

Adjust the temperature in one room or many

Change settings while on-the-go

Save energy with scheduling

Monitor usage with history view

Perfect for vacation homes

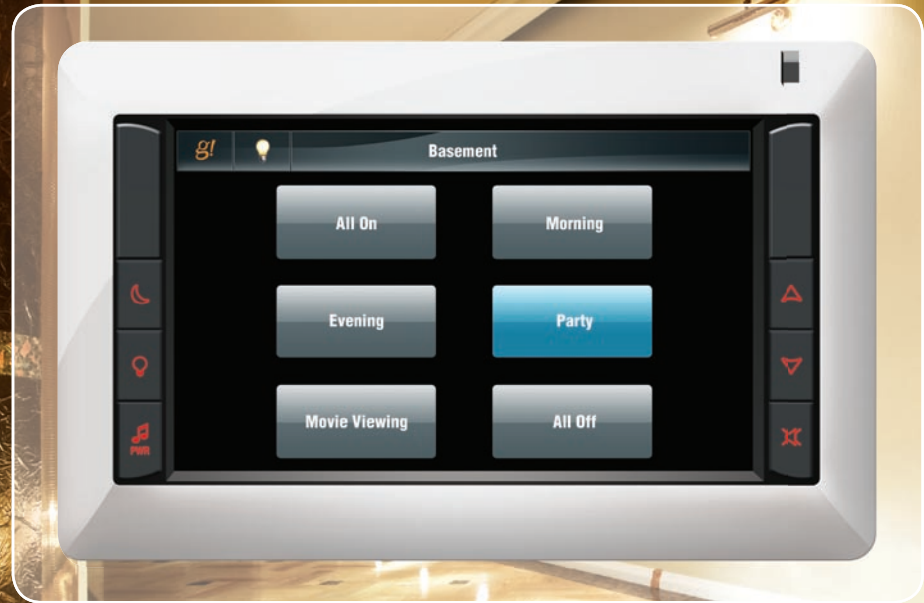

...changing the temperature was never so cool.

LIGHTING

If part of your bedtime ritual involves going from room to room checking the lights, there is a better way. With g! a simple touch can quickly turn them all off, or set the perfect party mood for the entire home. Save energy by dimming lights, managing shades and creating custom schedules for landscape lighting. Plus remote access features will ensure you always arrive to a well-lighted home.

“Not only is my lighting system beautiful, with g! it’s also easy to use. When I’m entertaining guests, I just press one button to light my entire home.”

Save energy with automatic scheduling

Control lights back home while you're away

Astronomical clock changes lighting with the seasons

Increase your safety by turning on lights as you approach home

Works seamlessly with ELAN lighting products

...bright ideas for the way you live.

IRRIGATION

The dials and switches used by many irrigation systems can be confusing and difficult to use. g! takes the guesswork out of watering your lawn and puts you in control with a simple, easy-to-read display. Conserve water by setting up personalized schedules, or give landscapers limited remote access to monitor the system and make adjustments.

“I get to spend more time enjoying my lawn, and less time playing weatherman – and I use less water than before! It’s like having autopilot for my backyard.”

Easily schedule your irrigation system

Automatically adjust for the changing seasons

Remote access for landscaping services

Group similar zones together

...your neighbors will be green with envy.

MESSAGING

While g! can't drive your children to ball games, it is your digital personal assistant allowing you to check your email and leave recorded messages for others. Each family member can easily create a custom greeting for their voice mail and be sent alerts or e-mails when new items arrive. And you can play messages directly from the touchscreen or remotely using a PC or phone.

“My son loves leaving me handwritten notes on the screen. And since our family is always on the go, having separate mailboxes for our messages keeps us organized. Say goodbye to sticky notes!”

Integrated voice mail,
caller ID & call history

Custom mailboxes
and greetings

Outgoing alerts via phone,
text message, or email

Leave a
handwritten message

...a master in communications.

VIDEO

If a picture is worth a thousand words, then video must be priceless. Whether you're checking on a vacation home, wanting to keep your family safe, or simply wondering who is at the front door – nothing gives you peace of mind like seeing them at your fingertips. And best of all you can view the same live video from your home, office, iPhone or anywhere in the world.

“I travel frequently, so getting a glimpse of home from the road is very comforting. I just open up my laptop to quickly see live or even recorded video of my house – from anywhere in the world.”

View who's at the front door

Monitor the baby's room

See live and recorded video from anywhere in the world

Camera features like pan, tilt and zoom

Perfect for vacation homes

...keep an eye on what's important to you.

POOL / SPA

Wouldn't it be cool if you could turn on the spa from the bedroom as you don your swimsuit? Conserve energy with scheduling of pumps, water features and lighting, and controlling automated covers. Also monitor pool health, receive customized alerts and even control the system from your cell phone. Time may not float on by, but with g! you can.

“In addition to all the pool automation features, we really love the way the landscape lighting is tied into a single, easy-to-use system. No more going into the house soaking wet just to turn on the patio lights.”

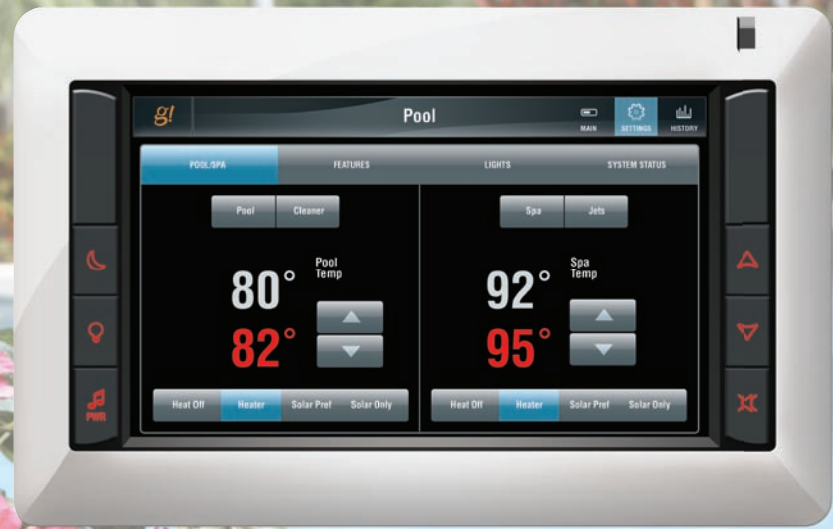

Manage pumps, heaters, covers and water features

Control both pool and landscaping lights

Monitor pool "health"

Custom scheduling to fit your lifestyle

Conserve energy by automatically controlling solar covers

...take control of your backyard paradise.

PHOTOS

In this new digital world, too often photos stay trapped in a PC or camera. Unlock those memories by turning every touchscreen and TV into a digital picture frame. Nothing gets the family together for “movie night” like a larger-than-life slideshow of your last vacation on the big screen.

“We love getting together and watching slideshows of our friends and family. Every time we do, it’s another step down memory lane that brings us closer together.”

Browse family pictures

View slideshows on your TV

Turn any touchscreen into a digital picture frame

...all of your memories at your fingertips.

NOW THAT YOU KNOW **WHAT** YOU CAN DO...
HERE IS **HOW** YOU CAN DO IT.

TV CONTROL AND MUCH MORE

You will actually fall in love with this sleek, powerful and extremely fun remote. But wait . . . it's more than just a remote. Not only can you surf the channels, but you can also control your lighting, climate and security from the comfort of your chair or anywhere in the house. Even browse for music to create a mood.

“My wife says that this is the first remote that has a woman in mind . . . as simple as the cable remote but more attractive and nicer to hold.”

and touch screen functionality

Control music & movies as well as
lighting, climate and security

Instant-on and quick-start WiFi
on every pick up

Space-saving charging station
fits anywhere

...entertainment & housewide control for couch potatoes.

ON THE GO...MOBILITY THAT FOLLOWS YOU

Your lifestyle moves with you and so does g! You are always a touch away from home with popular “i” devices: iPod touch®, iPhone®, or iPad®. Whether you are high on a mountaintop or at the park with the kids, you can check the temperature at the house or just make sure everything is secure. And it’s also a great way to keep tabs on your vacation home.

“A home system that is this flexible just fits in with our lifestyle. I am always in touch with my family and my home.”

Your iPad

Your iPhone or iPod touch

of your home systems

A familiar way to control
your home wherever you are

...there's an app for that™.

ALWAYS THERE... TOUCH DEVICES FOR THE WAY YOU LIVE AT HOME

Sometimes you need controls to be in the same place every time. That's what in-wall and tabletop controls do for you. Busy places such as the kitchen and living room are ideal for in-wall touch screens or touchpads. The den and the bedside nightstand are convenient locations for a tabletop touchpads.

“Whether it’s in the exercise room or the bedside, I prefer having my touch screens in place where I can find them.”

TS7 7" Touch Screen

VL2 Tabletop Touchpad Conversion Kit

Have full access to all your systems with TS7 Touch Screens

View visitors at the front door or your favorite morning TV show from any TS7 Touch Screen

Get sophisticated control with affordability of a keypad with TS2 Touchpads

TS2 Touchpad can be converted for tabletop control where needed

...simply easy to use and always there.

EVERY TV CAN BE A CONTROL SURFACE WITH THE g! ON-SCREEN DISPLAY

The same look and feel as your other g! screens, just use the five-button cursor navigation on any learned handheld remote control or with a g! handheld remote. You don't even have to leave your chair to adjust the temperature or turn on some lights.

“We like it because it's easy to find our movies and favorite TV shows . . . and we even allow the grownups to play their music.”

YOUR TV SETS

Big, bold and easy to use

Get high-def g! graphics
with component video

Every TV can be a user control
using the g! HC4 mini controller

...now your TV is more than just a TV.

THE BRAINS BEHIND IT

There is plenty of magic that comes from the heart of the system. With g!'s growing range of home controllers, automation and control capabilities can be scaled to your house regardless of size. Receive outbound alerts, schedule events and get all the automation you'd expect to be performed by the brain of the system.

“Because the home controllers can work in conjunction with each other, very large systems can be configured.”

HC12 SYSTEM CONTROLLER

HC4 SYSTEM CONTROLLER

Three models can be placed to meet different needs

The smaller, mini controller can easily be hidden behind most TVs

...making magic in your home.

AUDIO NEVER SOUNDED THIS GOOD

You will be hard-pressed to get the kind of audio quality from other systems. This professional grade pre-amp paired with powerful analog or digital amplifiers and rounded out with high-performance speakers will take you to another level of appreciation for sound. In fact, we know once you have experienced it, you will know for sure you are in a different league.

“The high-quality sound of the ELAN system was a pleasant surprise that no one could have conveyed to us prior to living with it.”

ELIOS™ ARCHITECTURAL
& CINEMA SPEAKERS

S86A MULTI-SOURCE/MULTI-ROOM A/V CONTROLLER

Pre-amp processing delivers professional grade audio

Analog and digital amplifiers provide a great range of power and performance

11 distinct levels of speakers create a range of choices that meets each listener's critical needs

...when you hear it, you will believe.

MAKE A STATEMENT BY KEEPING IN TOUCH

The classic door station welcomes guests, and the C2 Communications Controller adds a telephone-based intercom to your system. Your music will mute as you hear the door chimes through all the speakers in the house. Speak to visitors at the door or front gate using any phone. Includes features such as music on hold and room paging.

“When it comes to the family, this is the most used feature of the system. Pick up the phone, page, announce a call, even trigger a door lock or gate latch — all from the phone.”

DSF3/DSS2 DOOR STATION

C2 COMM CONTROLLER

Speak to visitors at the door using any telephone

Music mutes and door chimes are heard through inwall speakers

Page family members and guests

Two-line capability makes it practical for even large homes

...housewide communications save time and footsteps.

LIGHTING OPTIONS TO MEET YOUR NEEDS

ELAN lighting will illuminate the possibilities and create conveniences that make living in your home a real pleasure. Begin with a small project that can be retrofitted or fill a large house with lighting radiance. Virtually every major lighting brand is supported by g! including Lutron®, Vantage®, LiteTouch® – just to name a few.

“We all love the lighting system. Having the ability to turn off all the lights in the house with just one ALL OFF button is so convenient.”

Set up scenes to create a mood

Experience the security of
a well-lit home

Set levels that save energy

...from simple to sophisticated lighting options.

ABOUT THE COMPANY

ELAN HOME SYSTEMS has designed innovative, award-winning multi-room audio/video and home control systems since 1989. ELAN systems were the first to seamlessly combine music, TV and telephone-based features such as intercom and paging to create a new kind of whole-house entertainment and communications experience. These products have created convenience and peace of mind for homeowners all over the world. Now providing products in 52 countries with thousands of independent installation companies, ELAN is being installed everywhere from the basic cottage to estates of the rich and famous.

In its 20 years, ELAN has introduced four generations of housewide systems. g! is the latest generation, creating the most seamless user experience ever.

The Company offers the strongest warranty in the business and is proud so many homeowners continue to live with ELAN and enjoy the fruits of its technology.
